

Clean Energy

On behalf of The Environmental Defense Fund
May 2016

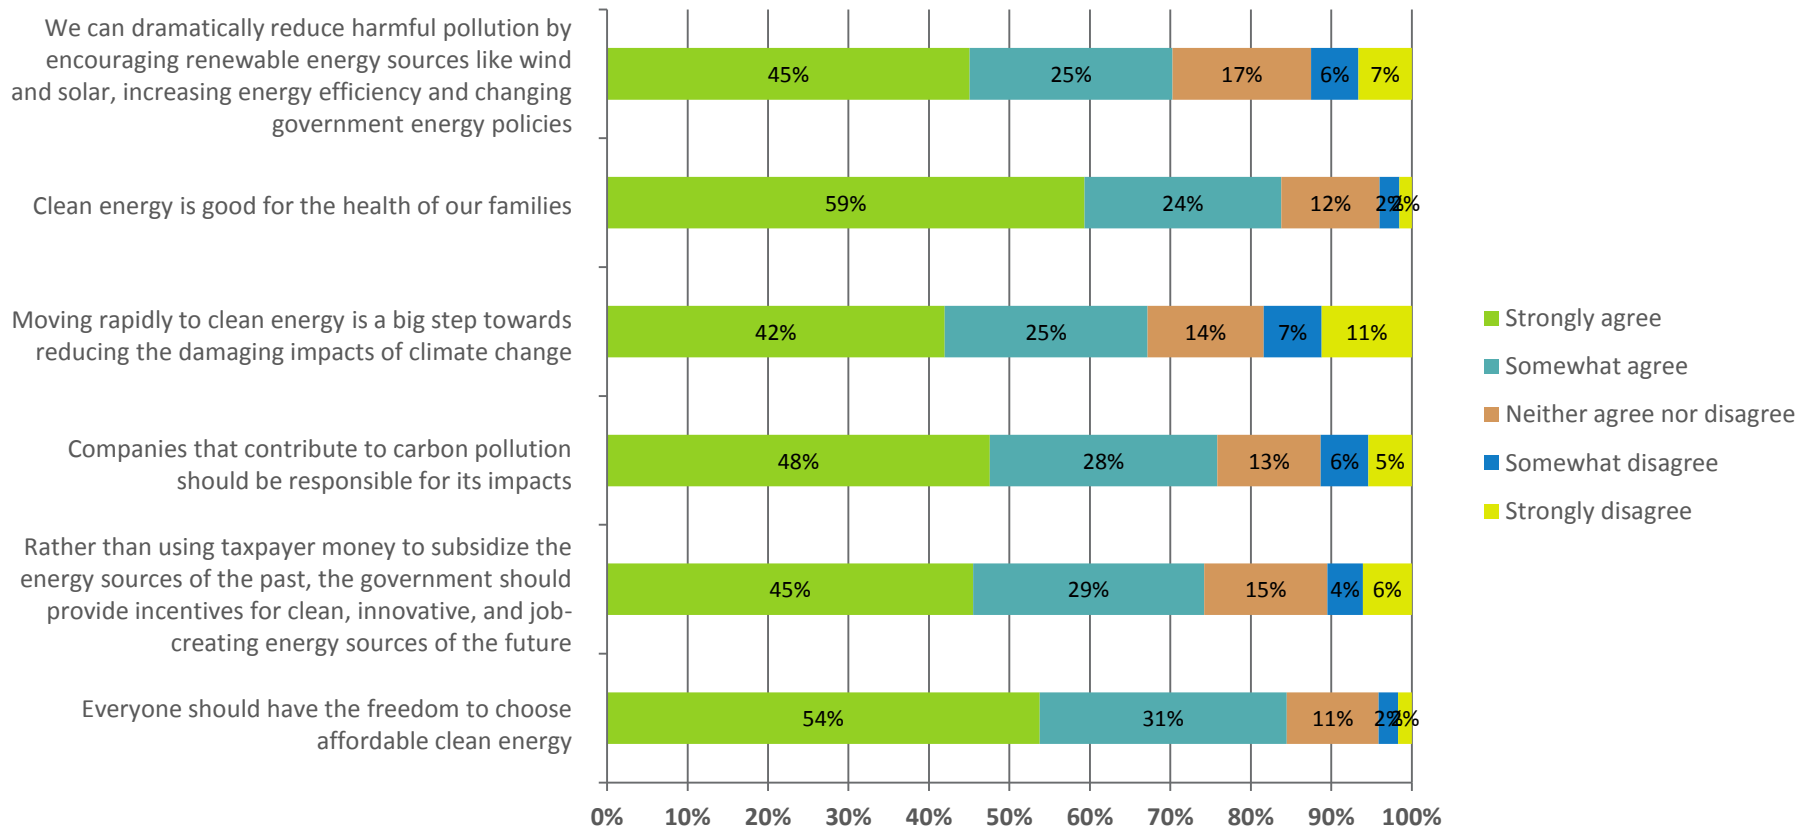

YouGov[®]

May 26-27, 2016

National online sample of 1,068 US Adults

Agree or Disagree

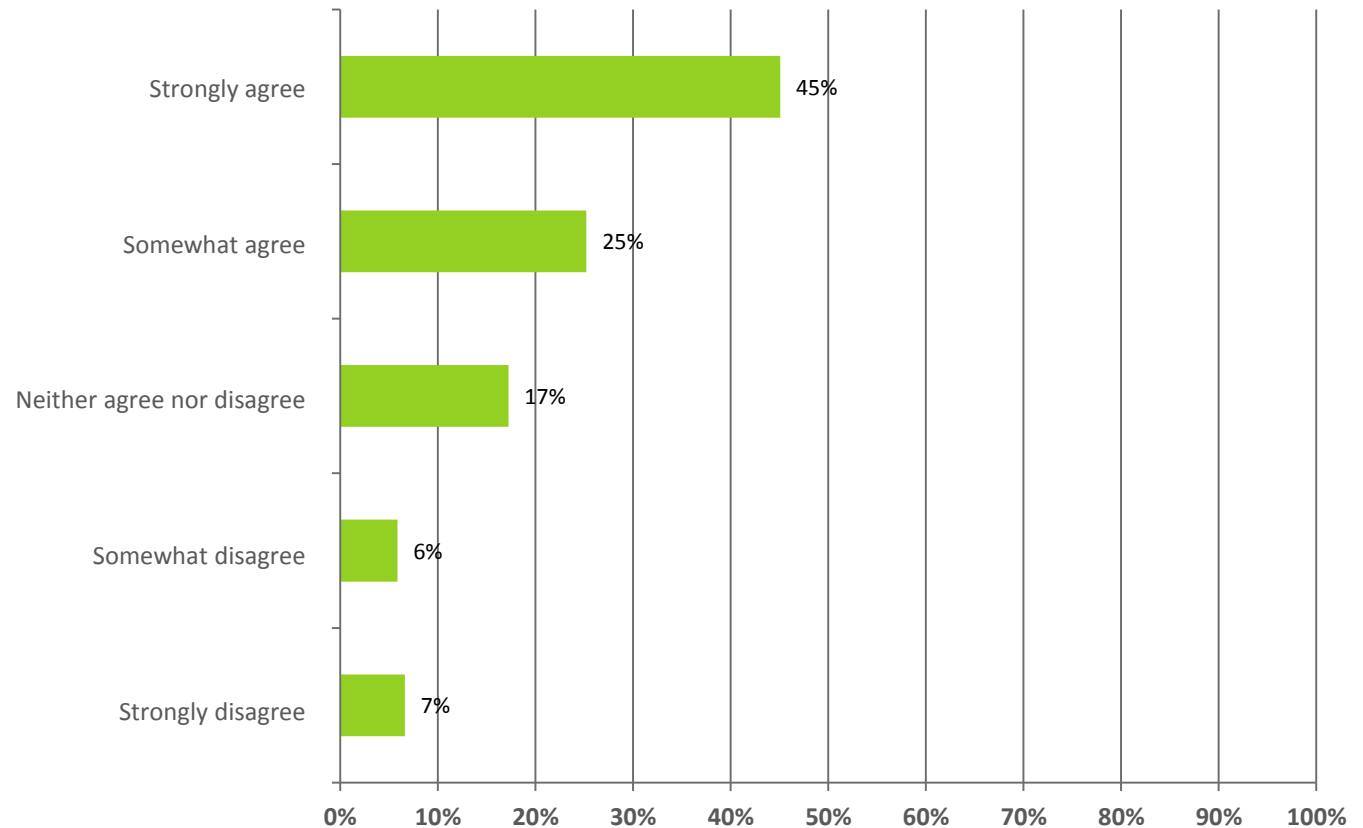

ZEC_q1.ZEC_q1_grid. Some people have proposed a call for action called the Clean Energy Commitment in order to cut air pollution and leave a healthier and better future for future generations. The Clean Energy Commitment includes the following ideas. Knowing this, to what extent do you agree or disagree with each of the following statements?

Unweighted base: All US adults (1068)

Encouraging Renewable Energy Sources

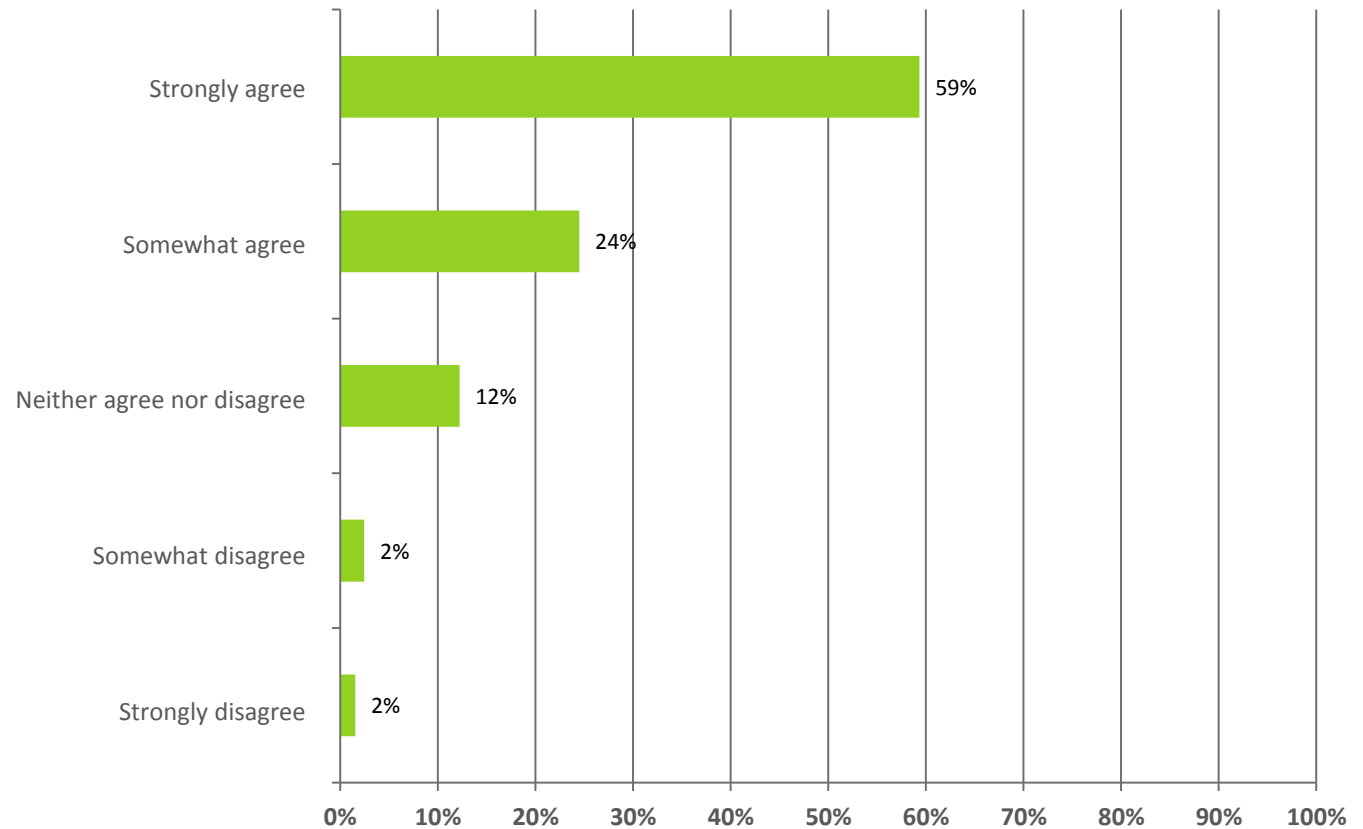

ZEC_q1{{zec_q1_1}}.ZEC_q1_grid. Some people have proposed a call for action called the Clean Energy Commitment in order to cut air pollution and leave a healthier and better future for future generations. The Clean Energy Commitment includes the following ideas. Knowing this, to what extent do you agree or disagree with each of the following statements? - We can dramatically reduce harmful pollution by encouraging renewable energy sources like wind and solar, increasing energy efficiency and changing government energy policies

Unweighted base: All US adults (1068)

Clean Energy is Good for the Health of Our Families

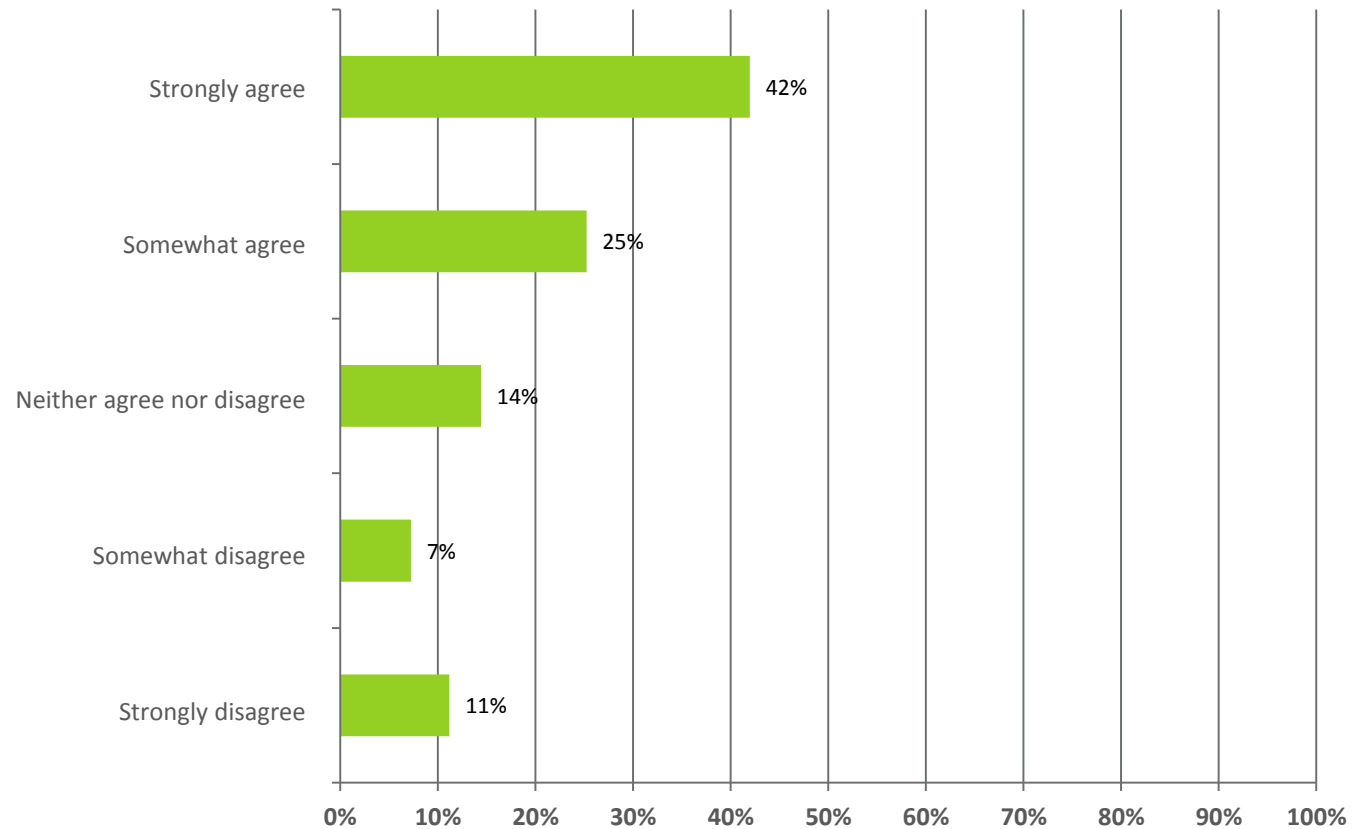

ZEC_q1[{zec_q1_2}].ZEC_q1_grid. Some people have proposed a call for action called the Clean Energy Commitment in order to cut air pollution and leave a healthier and better future for future generations. The Clean Energy Commitment includes the following ideas. Knowing this, to what extent do you agree or disagree with each of the following statements? - Clean energy is good for the health of our families

Unweighted base: All US adults (1068)

Moving Rapidly to Clean Energy

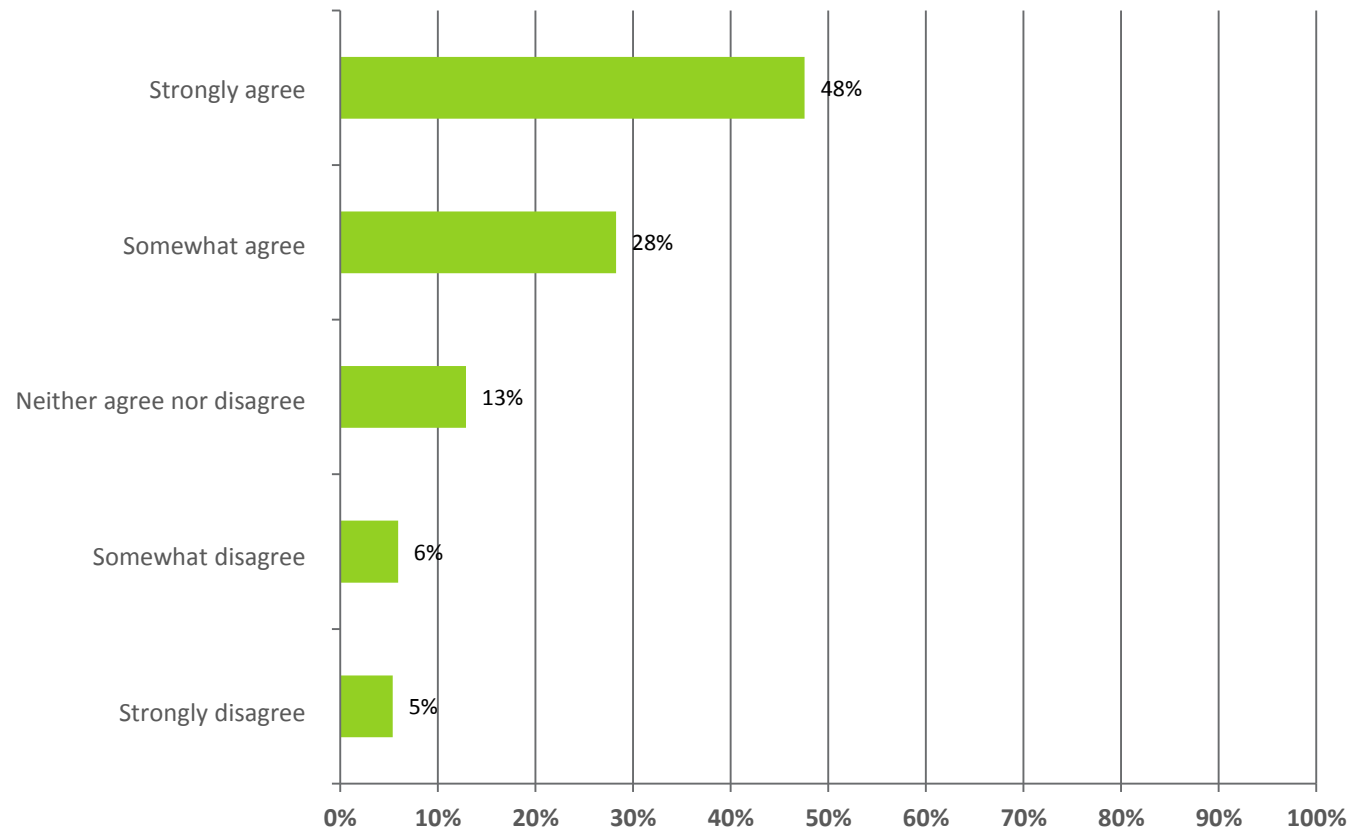

ZEC_q1[{{zec_q1_3}}].ZEC_q1_grid. Some people have proposed a call for action called the Clean Energy Commitment in order to cut air pollution and leave a healthier and better future for future generations. The Clean Energy Commitment includes the following ideas. Knowing this, to what extent do you agree or disagree with each of the following statements? - Moving rapidly to clean energy is a big step towards reducing the damaging impacts of climate change

Unweighted base: All US adults (1068)

Companies That Contribute to Carbon Pollution

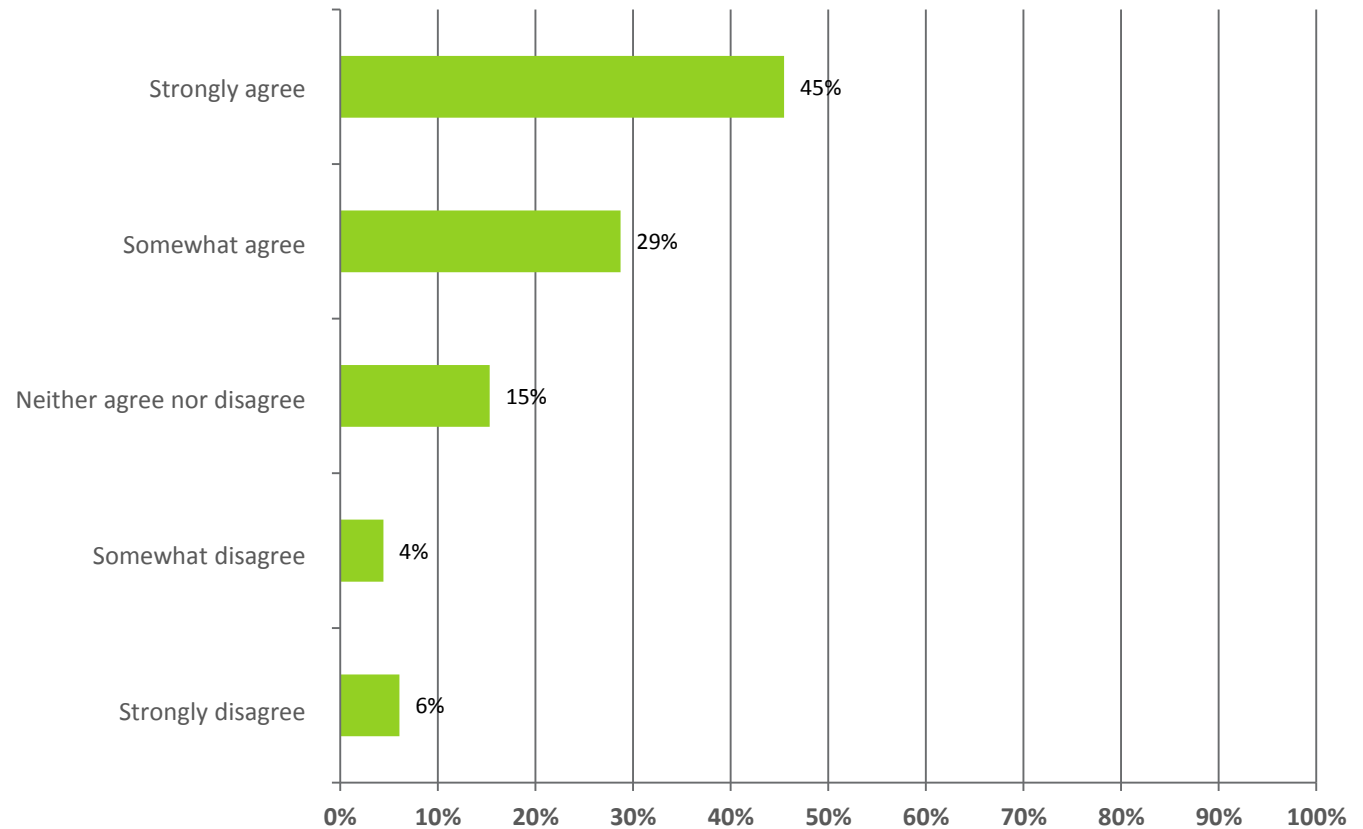

ZEC_q1[{{zec_q1_4}}].ZEC_q1_grid. Some people have proposed a call for action called the Clean Energy Commitment in order to cut air pollution and leave a healthier and better future for future generations. The Clean Energy Commitment includes the following ideas. Knowing this, to what extent do you agree or disagree with each of the following statements? - Companies that contribute to carbon pollution should be responsible for its impacts

Unweighted base: All US adults (1068)

Rather Than Using Taxpayer Money

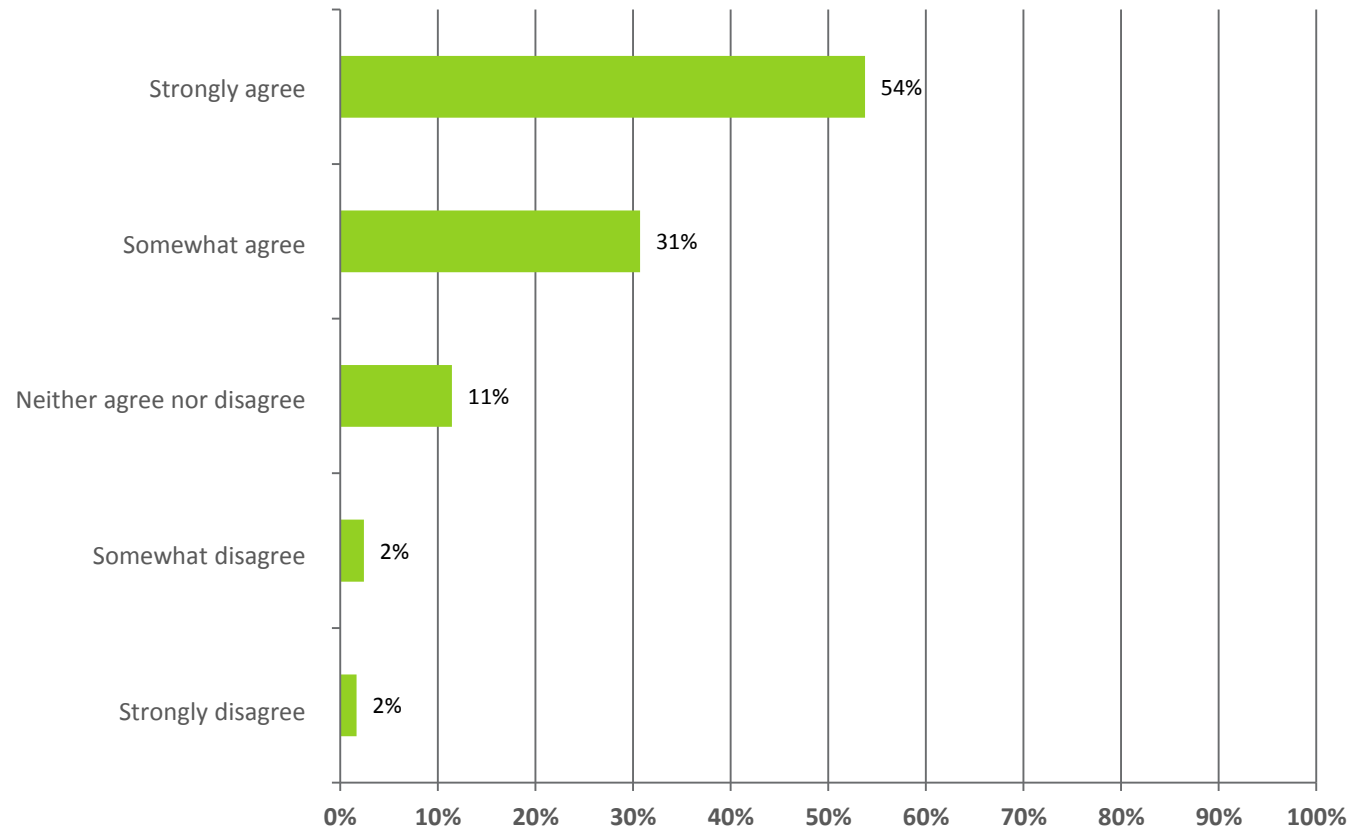

ZEC_q1[{{zec_q1_5}}].ZEC_q1_grid. Some people have proposed a call for action called the Clean Energy Commitment in order to cut air pollution and leave a healthier and better future for future generations. The Clean Energy Commitment includes the following ideas. Knowing this, to what extent do you agree or disagree with each of the following statements? - Rather than using taxpayer money to subsidize the energy sources of the past, the government should provide incentives for clean, innovative, and job-creating energy sources of the future

Unweighted base: All US adults (1068)

Everyone Should Have the Freedom to Choose Affordable Clean Energy

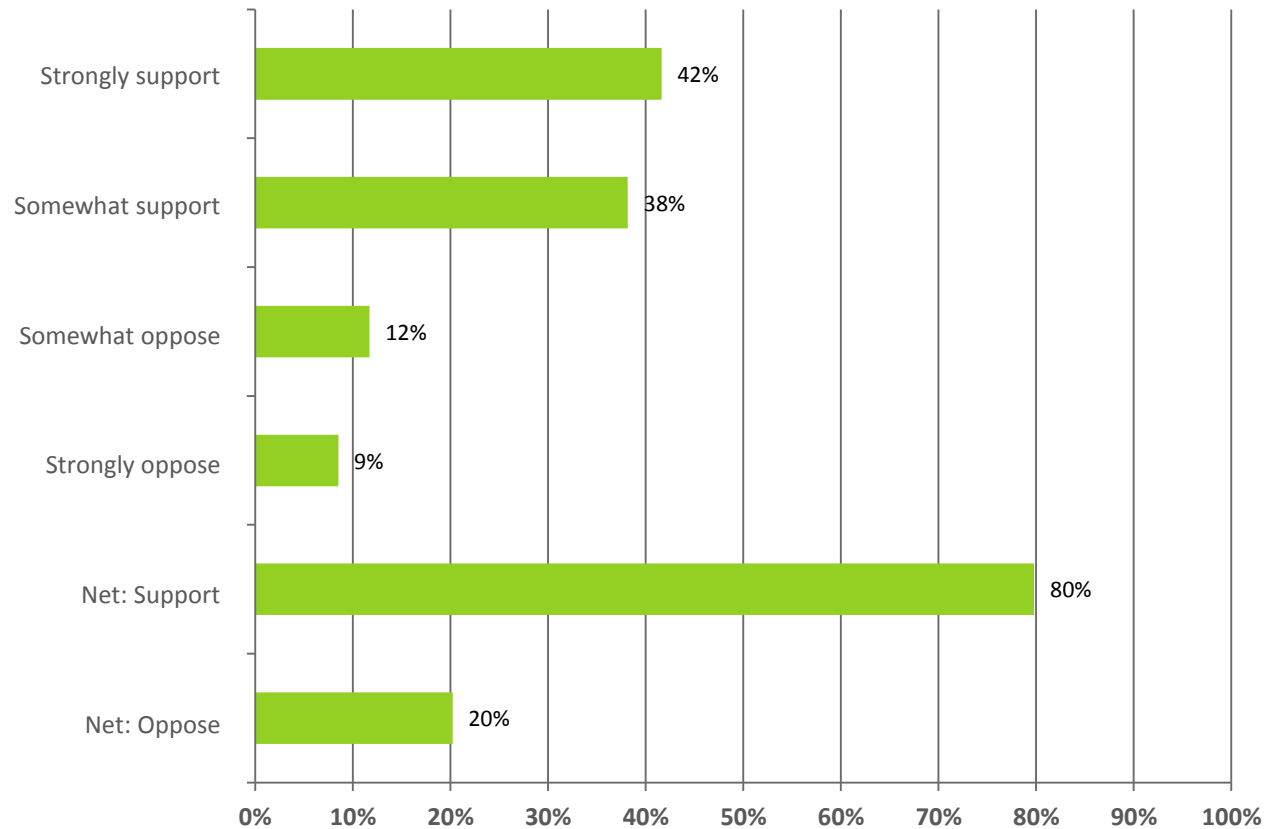

ZEC_q1[{zec_q1_6}].ZEC_q1_grid. Some people have proposed a call for action called the Clean Energy Commitment in order to cut air pollution and leave a healthier and better future for future generations. The Clean Energy Commitment includes the following ideas. Knowing this, to what extent do you agree or disagree with each of the following statements? - Everyone should have the freedom to choose affordable clean energy

Unweighted base: All US adults (1068)

Support or Oppose the Clean Energy Commitment

ZEC_q2. Altogether, after hearing all of the components of the Clean Energy Commitment, to what extent do you support or oppose the Clean Energy Commitment?

Unweighted base: All US adults (1068)
